2. Educational Field Trip

A Field Trip is one of the best tools that can use to provide students with real world experience. It helps students to interact with their learning and are able to see and manipulate or participate in it physically. Educational field trip also help students' mind explore the unknown and provides immense happiness and a sense of satisfaction. As a co-curricular and extension activities, an Educational Field Trip was arranged by the department of Education and Philosophy on 21st December 2021 on a visit to the *Rain Forest Research Institute, Jorhat Science Center and Planetarium, and Sukapha Samannay Kshetra* Jorhat district of Assam.

The main objectives of the field trip is to acquire the knowledge of natural resources, and also to acquire the first hand information about the historical relics of the Ahom kingdom as well as to see various cultural assortment repositioning in the museum of Sukapha Samannay Kshetra, Jorhat district of Assam. 16 students of the department of Education participated in this field trip under the teacher guide Dr. Monimala Borgohain. From this tour the students were able to know about the natural resources i.e. Bamboo trees. Students collected information about the historical relics of the Ahom kingdom. They will able to develop their writing skill and critical thinking. It helps to develop their co-operative ability among the teachers and students. Therefore, the event provided entertainment for the students.

Report on Field Survey:

Name of the Place : Govt. Sericulture Farming, Dolakharia.

Date: 08/06/2022

Objective: The objective of this field visit is to demonstrate the life cycle of silk worm.

Outline: Department of Economics has organized a field visit to demonstrate "SERICULTURE" cultivation of silkworms to produce silk. The event was held on 8th June, 2022. Project Officer Sericulture department in association with farmers were there to demonstrate. The duration of conduction of event was 3-4 hours.

Outcome: This field visit was of great use for students after theoretical knowledge they obtained in lecture, students were exposed to the practical and financial aspects to establish their own sericulture and silk production units. Furthermore, students collected life cycle stages (Eggs, Caterpillar, Cocoon, and Adults) of Bombyx mori. Understanding towards the concept and its application of sericulture was clearer to students after this visit.
