

Policy on Environment and Energy Usages

Kamarbandha College has made some important policies for betterment of the college. One of the important policies is “Policy on Environment and Energy Usages.”

For the protection of the environment, Kamarbandha College shall conduct some important programmes. These are as follows -

1. Make plantation in and around the college campus.
2. Make some cleanliness programmes.
3. Conduct Awareness programmes for environmental protection.

On the other hand, Kamarbandha College has adopted measures for saving energy, which are as follows:

1. Use of LED bulb in classrooms, Principal’s office, staff- common room and other places.
2. Use of good quality electric cable.
3. Efficient use of computers.
4. Turning of lights and electrical appliances when we do not need. Students shall be made aware of the importance of saving energy and advise them to switch off lights and fans before leaving the classroom.
5. A Monitoring system shall be made by the staff.
6. Timely replacement of the damaged electric cables.
