

POLICIES ON INFRASTRUCTURE MAINTENANCE

KAMARBANDHA COLLEGE

GOLAGHAT, ASSAM

The infrastructure of Kamarbandha College is adequate but not to a great extent. It is sufficient for a single shift scheme of the college.

RCC BUILDINGS: The college has two RCC buildings. One of them is two storied having 9 (nine) class rooms, one library cum reading room, (a part of it is used as a museum) IQAC Office, one computer lab and a conference Hall with 4 (four) toilet blocks. The other is of single storied with an attached toilet block. The buildings are maintained as follows:

1. There are two grade 4 employees engaged to look after the building. They maintain the cleanliness of the rooms.
2. Every class room for Honours subjects contains 6 (six) pairs of desks and benches while the other two general class rooms contain 10 (ten) pairs each. Every class room is provided with one white marker board.
3. Along with the grade 4 employees, the students, especially the NCC and NSS members also take care to keep the entire building neat and clean.
4. A librarian, a library assistant and a bearer manage the library, following the library rules and regulations.
5. The college museum has some antique things representing the culture of the society. It is maintained by the library staff.
6. The single storied building has been used as the teachers' common room.
6. There are 10(ten desktops) in the computer lab. It is conducted basically by the computer faculty.
7. The conference hall has 70 (seventy seat capacity) with a projector and an attached toilet. Classes on power point presentation are also held in that room.

ASSAM TYPE BUILDINGS: The college has 4(four) Assam type buildings (one of them is kachcha bamboo building with galvanize roofing.)

Purposes and Services of the buildings:

1. One Assam type building has the administrative block and the girls' common room. One Assam type building has five class rooms.
2. Two rooms can hold 30 pairs of desks and benches. Another general class room has 13 pairs of desks and benches. There are 2 class rooms for Honours subjects, each containing 6 pairs of desks and benches.
3. One Assam type building is of 2 rooms, used as offices of NCC and Students' Union Body.
4. The kachcha building of the college is a traditional structure preserved as an identity of a rural area college. Sometimes it is used for taking classes and also in some functional activities of the college. It has three rooms, one of them is proposed to be used as the office of the Alumni Association.

THE COLLEGE AUDITORIUM: The college auditorium is a big one having a seat capacity of about five hundred people with a stage of 20×40 feet. There is a separate room also attached to the auditorium which has been used by the college as a health care centre.

THE COLLEGE CANTEEN: The college canteen is in the form of a traditional house made of bamboo, with galvanized roofing. It is run and maintained by an ex-student of the college.

TOILET BLOCKS: The college has 8 toilet blocks, four for boys and four for girls. Two toilets were built by NRL, Golaghat.

CYCLE STAND: The college has a cycle stand of 10×100 feet.

PLAY GROUND, TEA GARDEN, FLOWER GARDEN, OPEN SPACE, POND:

1. The college playground is a well-planned one surrounded by a boundary wall. It is maintained by the college authority.
2. The college has tea plantation on around 4 bighas of land. It is maintained by the college authority with the help of the grade 4 employees and the students.
3. The college has two flower gardens in front of the administrative building and the two storied RCC building maintained by the fourth-grade employees and students of the college. There is a herbal garden also in front of the teachers' common room. It is maintained by the teaching staff with the help of non-teaching staff.
4. There is an open space between the college auditorium and the college building. It is used as a car parking area of the college.
5. The pond of the college is serves as a reservoir of rain water and conservation of biodiversity.

E-RESOURCE MANAGEMENT: The college has some e-resources also that helps the authority in college management and the teachers and students in teaching-learning system.

1. CC Cameras: There are 16 CCTV cameras in the class rooms, in the library and at the college entrance. It helps the college authority in monitoring not only the classes but also the activities of the faculties, employees and students. It is very much helpful for the management. The cameras were installed in 2018 and from then onwards it has been working properly.
2. Wi-fi: The college authority installed a wi-fi system in 2018 covering the college campus. The students are allowed to use it in the class room and in the library for educational purposes only with due permission. The teachers and students can avail Wi-fi services.
3. Library automation system and e-resources: The college library is partially automated with software KOHA, version 21.
4. Solar Lamp: A solar lamp has been installed in front of the college gate, provided by the MP, Sri Gaurav Gogoi.

All these infrastructures are maintained by the college authority in collaboration with the Governing body, employees, students and the alumni. In this respect, the IQAC & NSS unit of Kamarbandha college also play an important part.
